

**SAFE CLASSROOM LMS**

Specifically designed for K-12, Gaggle allows students to take advantage of the latest technology for communication, collaboration, productivity and social learning, while helping teachers save time so they can focus on who matters the most... their students.

**Assignments**

Easily create, collect and correct assignments for a truly paperless classroom.

**Blogs**

Students publish their thoughts, ideas and creativity in a safe and secure environment, while teachers easily share classroom activities with students and parents.

**Calendars**

Schedule events, send invitations, set reminders and stay organized.

**Digital Lockers**

Store and share your files created and edited with Google Apps, Microsoft Office and other products.

**Discussion Boards**

Support curriculum with ongoing classroom conversations, or create discussion boards for specific students or classes.

**Email**

Access email anywhere, at any time, on any device.

**GaggleTube**

Safely search YouTube videos, or save and share videos with your school, the entire district, or the world.

**Social Walls**

Share content, including photos and videos, similar to the most popular social network experiences.

**I have been using Gaggle exclusively to deliver my online instruction. Gaggle has made my life much easier because everything is all in one place!**

21st Century Literacy Facilitator  
Bennett Elementary  
Detroit Public Schools

## SAFETY & SECURITY

Gaggle's Safe Classroom Learning Management System (LMS) promotes student engagement in a safe and controlled environment while encouraging the sharing of diverse ideas and perspectives.

### **Anti-Pornography Scanner (APS)**

Ensure CIPA compliance with proprietary, real-time image analysis that prevents pornography from reaching students. The APS looks at embedded and attached images as well as images in Google Docs, Sheets and Presentations, Office 365 files, linked websites and more.

### **Content Filtering**

Messages, text documents and even email attachments are scanned for inappropriate words to ensure that content is appropriate and safe.

### **Gaggle Safety Management**

Discover inappropriate words and images that lead to warnings sent to school district administrators and law enforcement. Gaggle helps detect potential issues early, alerting district officials at any hour if a threat is imminent and allowing educators and parents to intervene positively.

### **Spam and Virus Protection**

Reliable email message and file scanning that includes virus definitions updated every 15 minutes.

### **Cyber Safety Course**

Reinforce Internet safety with students through the use of videos and short quizzes, including a student safety pledge after completion of the course.

***Gaggle complies with all U.S. privacy and safety laws, particularly those involving children, including:***

- + Children's Internet Protection Act (CIPA)
- + Children's Online Privacy Protection Act (COPPA)
- + Family Educational Rights and Privacy Act (FERPA)
- + Health Insurance Portability and Accountability Act (HIPAA)
- + Self-certification compliance with the U.S.-EU Safe Harbor Framework

“

Gaggle gives our district the assurance that our students are being protected and are safe using email and other web-based resources.”

**Matt Pelland**  
Instructional Technology Director  
Baraboo School District
