

Hypertherm Educational Grant Summary

Grant Overview: The Hypertherm Educational Grant was established to help ensure that the next generation of metal working professionals is familiar with the newest technology for plasma cutting and gouging. The grant awards ten schools with a Powermax45 XP cutting system, AWS SENSE approved "Plasma Cutting Technology: Theory and Practice" curriculum kit, and an initial visit by a Hypertherm District Manager to set up and train on the equipment and curriculum.

The Warren County Career Center is interested in applying for the Hypertherm grant to benefit its Welding and Machine Technology Programs of Study.

Amount of Award: No cash award; equipment, curriculum, and training are delivered directly to awardees.

Due Date/Notification of Award: April 2, 2018. Notification in May 2018.

Alternatives if not Awarded: Instruction will continue as planned.

WCSD Resources Required: None.

Administrative Recommendation: That the Board of School Directors instructs the administration to submit an application to the Hypertherm Educational Grant to receive equipment, curriculum, and professional development to benefit the Welding and Machine Technology Programs of Study.
