

StormWind Studios was recently awarded a statewide contract by the Office of Administration OIT that covers all PA state agencies under the governor's office. Through July 30th, StormWind is extending the contract pricing to other PA state agencies and entities that *do not* fall under the governor's jurisdiction but would like to participate. This includes but not limited to PA higher education, IU's, PA school districts, PA counties and pa local government. StormWind can provide July billing as needed but the order must be received by July 30th, 2021. If you have special circumstance that do not permit you to meet this deadline please contact the PA State Contract Manager below for possible extension.

To participate or for more details about the state contract and your organizations eligibility please contact the StormWind Commonwealth of PA Contract Manager:

Akira Mitsuka
StormWind Commonwealth of PA Contract Manager
480-339-2766
akira.mitsuka@stormwindlive.com

Details: The Commonwealth of PA has contracted StormWind to provide subscription based training in the areas of ITIL, cyber security, project management and IT technical classes. Each subscription provides unlimited access to ALL StormWind live instructor led online *and* self-paced classes with unlimited access to all associated student guides/books, hands-on labs, certification practice exams and post class mentoring for 12-months per subscription. Licenses are purchased per team member for **\$695 per person**.

Please see the attached Ultimate Access info sheet and 2021 build plan for classes that are included in this offer. Again, participants have access to ALL classes in the ultimate access package.

If your agency would like to participate or you have questions please contact your account manager below.

EPIC Live Datasheet

A Perfect Way to Learn

StormWind EPIC Live is a new, highly engaging and interactive web-based learning series, which eliminates traditional corporate training barriers by enabling you to access the best in live, technical information and certification training anywhere, anytime. Scheduled, live courses with the most knowledgeable, real-world and battle-tested, instructors on earth. Each class is packed with the latest in Hollywood movie technology filled with live video, multimedia presentations, interactive discussion, and includes guest “in the field” experts. StormWind EPIC Live is a massively engaging, next-generation web training experience with live instructors. All delivered in a way that is interactive, which helps you learn and apply the concepts to your job immediately. All at half the price of normal classroom training.

Instant Replay

Miss a LIVE class or want to review a section of class? No problem. With our exclusive Instant Replay, you can access every LIVE course at your leisure. All the topics, every guest speaker, each tip and all the hands-on labs are at your fingertips. You won’t miss a beat.

EPIC Live Features

- Every class filled with the best certified instructors & IT Pro experts on earth
- Mind-blowing, rich media experience using Hollywood technologies creating a personal interaction
- Learn from battle-tested, corporate IT gurus that will show you all their learned tips, tricks and shortcuts
- Engaging hands-on labs and virtual sims to make sure you know this stuff cold
- Train and review on your schedule, anytime, with StormWind “Instant Replay”

Hollywood meets IT training: online classrooms never looked this good.

Hands-on Labs

When it’s time to put into practice what you’ve learned, there is nothing like in-depth labs. Just like classroom training you’ll be taking your new knowledge and applying it into real situations. We have dozens of labs in most courses covering both the certification test topics and the real-world application.

Elite Instructors

Ready to learn from literally the best in the world? Instead of having just one or even two classroom instructors in a course, we’ve created the ideal way to learn by filling every class with numerous best-of-the-best instructors. These pros’ literally write the books on Microsoft, Cisco and PMP. And then we bring in proven, corporate IT experts to teach you the real-world application and secrets of each topic.

Flexible Scheduling

Typical IT training classes are taught 8 hours a day, 5 days in a row which makes it impossible to do your daily job. Not with EPIC Live! Our classes are offered in bite-sized slots of eight, two-hour sessions held over eight days. We cut out all the wasted time in classroom learning and leverage multimedia messaging allowing you to grasp concepts more efficiently and retain what you’ve learned. This allows you tremendous flexibility in doing both your regular work and in learning new technologies.

Ultimate Access

Overview

StormWind's courses deliver real-world tips and tricks that students can't get from standard training courses. We know that most networks incorporate the best gear from multiple vendors – so learning about a single technology in a vacuum is just not good enough. Not only do our instructors cover the latest software and its interactions with other common devices, they make sure our students understand the “how and why”, how to avoid common pitfalls, and they'll cover the important workarounds.

Maximize your investment in your technologies and in your team with a real world, expert-led Ultimate Access subscription.

Why Choose StormWind?

With massively engaging content, Hollywood style HD content delivery, and passionate instructors that live and breathe IT, StormWind EPIC Live was designed and inspired by eliminating everything we despise about traditional, boring online and classroom training.

Hollywood meets IT training: online classrooms never looked this good.

Maximize Your Budget – And Get Your Team Trained NOW

With an Ultimate Access subscription that costs less than two of our individual Cisco or Microsoft courses, and a LIVE class schedule that won't leave your network unattended, you can afford to turn your entire team into highly trained professionals and do it in less time.

What You Get

Ultimate Access packaging automatically includes access to ALL course updates and any NET NEW courses that are released during your term of service - and we're always adding new courses. The package includes access to:

- ✓ A full calendar of LIVE instructor-led class events, every month, for the entire term – no limitations
- ✓ 24x7 access to ALL Instant Replays – Constantly refreshed, HD video recordings of the Live class sessions
- ✓ Certification Practice Exams
- ✓ Labs
- ✓ 1:1 Mentoring for Q&A with your instructor during the entire term
- ✓ Downloadable Student Guides
- ✓ Access to the BEST Instructors in the business
