Dear Sir;

The Tidioute Community Charter School (TCCS) is scheduled to open in August, 2005. TCCS is seeking an existing school nutrition program to manage our nutrition program.

Sandi Sauder from the Pennsylvania Department of Education, Bureau of Budget and Fiscal Management – Division of Food and Nutrition has advised TCCS that we can consider either of two options:

1. Become a site under a managing school district, or
2. Become a satellite under a managing school district.

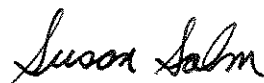

At present, TCCS anticipates an enrollment of 200+ students, with approximately 83% of those students eligible for the Title 1 program. TCCS's primary objectives are to deliver a nutritious appealing meal plan to our prospective students and staff. It is also our desire that the meal preparation will take place in our building with local staff.

We would like to ascertain if your school district would be interested in managing this program as a site or satellite program. If you are interested or desire more information, please contact:
