*** In this bid the school district specified that the companies not bid remanufactured cartridges. Rhinoteck Computer Products and DeNobo Ink both did not bid OEM (original cartridges). Polir Inkjet and Toner sent a letter stating that some of the packages may be damage. After discussion with the Technology Department we feel that it would be in the best interest of the district to not purchase from this company because of the possibly that we would receive damaged goods. We have in the past worked with Burrell Enterprise and feel this company would be a good choice.
