Health Inspection News

This month, three of our district kitchens were inspected by the State Health Department. We are happy to report that all locations received no violations. Reports were submitted to your office when they occurred.

Kitchen of the Month Awards

This year we have started a new awards program for the Food Service Staff. The program recognizes one building for the outstanding work they performed in the previous month. We are happy to recognize Warren Area High School Food Service Staff for September and Beaty Warren Middle School Staff for October. Both locations are achieving a large increase in participation, while maintaining the highest level of service and food quality. Each location received a Certificate and a special treat for their break time. Congratulations!
