SOFTWARE ASSURANCE BENEFITS: ACADEMIC VOLUME LICENSING PROGRAMS

ORGANIZATIONAL PROFILES:

OPEN LICENSE FOR ACADEMIC
Open License for Academic in an entry-level program that offers one license agreement and a "pay-as-you-go" approach to volume licensing for academic institutions of all sizes.

SELECT LICENSE /SELECT PLUS FOR ACADEMIC
Select License for Academic makes it easy to acquire licenses for Microsoft products on an ongoing basis and best serves customers able to forecast software needs over time.

Select Plus for Academic offers a non-expiring agreement, the flexibility to acquire licenses as needed, and a single customer ID to streamline account management across multiple affiliates.

SELECT LICENSE /SELECT PLUS FOR ACADEMIC WITH SAM
Select License or Select Plus for Academic with SAM is designed for organizations that commit to attaching SA to all products under a particular product pool (applications, servers, or systems).

CAMPUS AGREEMENT
Campus Agreement offers a simple, flexible program that enables you to standardize your software across your organization, keep your technology up-to-date and place software orders annually and as needed throughout the year.

SCHOOL AGREEMENT
Microsoft School Agreement is a subscription licensing program specifically created to address the unique needs of primary and secondary schools and districts.

For more on Software Assurance refer to the Microsoft Software Assurance Web site (www.microsoft.com/ Softwareassurance) or contact your Microsoft Volume Licensing Reseller.

	BENEFIT	BENEFIT SUMMARY	ELIGIBILITY SUMMARY
NEW PRODUCTS	New Product Versions	Provides new software version releases so you have access to the latest technology.	Every license covered under Software Assurance may be upgraded to the newest version.
NEW PRODUCTS	Windows® 7 Enterprise	Helps organizations increase desktop productivity by enabling standardization, improved security features, and multi-language support.	For every Windows license covered under Software Assurance, you are eligible for one Windows 7 Enterprise license.
DEPLOYMENT	TechNet Benefits through Software Assurance	Gives IT staff access to experts, technical information, plus beta and final versions of products for testing and evaluation.	For each eligible server product with Software Assurance one person within your organization gains access to TechNet's Online Concierge and Managed Newsgroup services. You also receive a single complimentary subscription to TechNet Plus Direct.
DEPLOYMENT	Home Use Program	Provides employees with the latest version of Microsoft Office for their home computer, via low cost download.	For each Office Application you have covered with Software Assurance, a user of the licensed PC or device may acquire at low cost one copy of that product for use at home.
TRAINING	E-Learning	Offers self-paced interactive training designed for end-users and IT professionals, delivered via Internet or Intranet.	For every qualifying license (such as Office Word or Windows 7) covered by Software Assurance, one person in your organization may access E-Learning courses for that product.
SUPPORT	Extended Hotfix Support	Provides specific product fixes on a per customer incident basis, beyond the standard product support terms and releases.	You must have SA for systems product pool to qualify for Windows Extended Hotfix Support, and have SA for applications product pool for Extended Hotfix support for older versions of Office. You must have SA for one server product to qualify for Extended Hotfix Support for older server versions. While annual fees normally charged as part of an Extended Support agreement are waived during your SA coverage, you must have a Premier or Essential Support Agreement in place to receive this benefit.
SPECIALIZED	Cold Backups for Disaster Recovery	Provides licensing for servers used as offline ("cold") backups for disaster recovery purposes.	For each qualifying server license you have with Software Assurance and related CALs, you may run one instance of the software on a "cold" server for disaster recovery purposes.
SPECIALIZED	Windows Fundamentals for Legacy PCs	Allows continued use of old "legacy" PCs, while improving their management and security by providing a small-footprint Windows-based operating system solution, designed to work with the Microsoft Remote Desktop Connection client or third-party clients for application access.	To receive this benefit you must have SA coverage for all of your purchases under the systems product pool – also referred to as Software Assurance Membership (or SAM).
SPECIALIZED	Spread Payments	Payment for license and Software Assurance may be spread across three equal, annual sums.	Available on all Volume Licensing programs, except Open License.
