

FOOD SERVICE REPORT DEC 20 20

**FRESH,
NUTRITIOUS,
& INNOVATIVE**

Essential = WCSD Cafeterias

Yes we are always open. No closures, quarantines, or pandemic is going to keep the WCSD Cafeteria staff from providing meals for the students. What a great staff providing over 1,500 meals to students daily even through the days of school shutdown in December.

The holiday season is a festive time filled with love, laughter, and happy memories. Celebrations with classic songs, stories, crafts, and favorite recipes create meaningful traditions with family and friends and strengthen our appreciation for people and events.

Though this year's celebration may have changed a bit, we still served up delicious Holiday meals and plenty of seasonal fun. We sincerely appreciate our food service team for their caring attitudes and hard work in preparing these meals for the students to enjoy!

Merry Christmas from the
WCSD Cafeteria Department

SEE NUTRITIONAL INFO

Check menus, see nutritional information and allergens. Students can rate and favorite menu items all from their phone.

WARREN COUNTY SCHOOL DISTRICT

USDA Flexibilities Extended

Thank You!

As December comes to a close, we want to take a moment to extend our heartfelt thanks and gratitude for allowing us to serve your students this past year. We look forward to serving students, administration and your community in the New Year.

As you most likely know, the U.S. Department of Agriculture (USDA) once again extended flexibilities through June 2021 so meal program operators can continue serving free meals to all children. This unprecedented move ensures children have access to nutritious meals.

As your food service provider, we continue to reassure you that regardless of your district's plan for educating your students, or how those plans may change, we're prepared to serve nutritious meals to the children in your community.

Teamwork is vital for our ability to remain adaptable and flexible in our ever-changing landscape.

PURCHASING TEAM

The Nutrition Group Purchasing Team continues to stay in daily contact with vendors and manufacturers to ensure availability of product and successfully navigate nation-wide supply chain challenges every industry is currently experiencing.
