Ann M. Buerkle
Principal

The tutors working during the day at South Street Early Learning Center provide instruction and remediation throughout the entire day. They see students during center time, playtime, opening exercises, work time and other remediation time.

They are reviewing letters, sounds, and sight words by using materials from the Harcourt Storytown series as well as activities available from the Title One teachers and classroom teachers. They also work on fluency and comprehension skills in addition to basic writing skills relative to the stories being read.
