Dr. Robert E. Terrill, Superintendent

Mrs. Delores E. Berry, Principal

July 8, 2010

Good Morning Mr. Miller,

In the past, the WCCC has had two advisors for Skills USA. These advisors have taken the responsibility of running two student advisory groups that meet monthly, organizing the student body for competitions, communicating extensively with the faculty, and preparing for the logistics of Tech Prep sponsored field trips. Additionally, advisors organize and travel with students for the district, state and national competitions.

The Warren County Career Center has been selected to host the 2010-2011 District competitions for Skills USA.

This is an event of three hundred competitors plus numerous other individuals involved in activities on this day. We are asking the Board for approval of a third advisor during this hosting year. This event requires excessive hours for planning and orchestrating the competitions.

Your support in this matter is appreciated.
Please advise.

Delores E. Berry
