Dear Board Members:

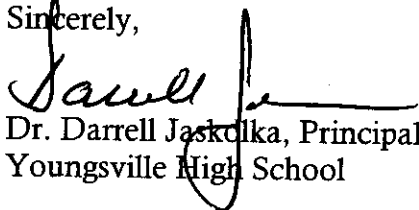

Youngsville High School would like to request to purchase Resilite wrestling mats for the wrestling room. Currently, these mats are being used throughout the district with no known issues.

Resilite mats have a very good safety record. The compounds used in this product absorb the impact of the athletes landing keeping them free of injury. They also allow the athlete to slide on the mat after prolonged use. The Resilite mat is easy to maintain and with proper cleaning can avoid infectious diseases.

Because of the high usage of these mats, it is important to have ones that will hold up for many years. Not only do the wrestlers use these mats, but they are also used by cheerleaders, gym classes and the Head Start classes that are housed at Youngsville High school. The mats are used for wrestling tournaments and that is why we have regulation mats on one side and practice style mats on the other side. Coaches from other school that use other types of mats have commented on their regrets of not purchasing the Resilite mat.

Thank you for your consideration in purchasing Resilite mats for Youngsville High School.

Sincerely,

Dr. Darrell Jaskolka, Principal
Youngsville High School
