Aronia arbutifolia

brilliantissima

Rhododendron

Rhododendron

grandiflorum

Salvia May Night

Salvia nemorosa

'Mainacht'

Solomon's Seal

Polygonatum bilflourm

Sweet Woodruff

Galium odoratum

Green Roof Plants

The green roof consists of a vinyl waterproof membrane covered with 3.5 inches of a largely inorganic soil mix. The plants selected for the roof are adapted to the harsh "alpine-like" conditions of the roof of severe heat, drought, cold and snow.

Autumn Stonecrop

Sedum 'Purple Emperor'

Chives

Allium schoenoprasum

Fameflower

Phemeranthus calycinum

Gold Sedum

Sedum floriferum

Kamschatka Sedum

Sedum kamtschaticum

October Daphne

Sedum sieboldii

Reflexed Stonecrop

Sedum reflexum

Sedum Takesimensis

Phedimus takesimensis 'Golden

Carpet'

Sedum

Sedum spurium 'John Creech'

Sedum

Sedum spurium 'Raspberry Red'

Tasteless Stonecrop

Sedum sexangulare

White Stonecrop

The Gardens of Pittsfield Woods

The wetland, woodland, field, and green roof gardens at Pittsfield Woods extend our "green" theme outside the building. Many of these plants may attract wildlife like butterflies, songbirds, frogs and toads.

These regionally native plants are adapted to our climate and require less watering and maintenance. You can use this brochure to select plants for your own home garden.

The Robert H. Jackson Garden has been maintained by the Warren County Garden Club at Pittsfield Woods since 2009. This is a traditional garden that is also certified as a backyard wildlife habitat.

Field Garden

These regionally native plants grow well in full sun. Many attract birds and butterflies with their nectar, buds, and fruits.

Allegheny Monkey Flower

Mimulus ringens

Azalea

Rhododendron prinophyllum

Bee-Balm

Monarda didyma

Black-eyed Susan

Rudbeckia hirta

Blazing Star

Liatris spicata

Boneset

Eupatorium perfoliatum

Butterfly Weed

Asclepias tuberosa

Common Milkweed

Asclepias syriaca

Gay Feather

Liatris spicata

Goldenrod

Solidago 'Little Lemon'

Joe-Pye Weed

Eupatorium fistulosum

Jolly Bee Geranium

Pelargonium 'Jolly Bee'

Lanceleaf Coreopsis

Coreopsis lanceolata

Little Bluestem

Schizachyrium scoparium

Lupine

Lupinus perennis

Mariesii Viburnum

Viburnum plicatum
'Mariesii'

New England Aster

Aster novae-angliae

New Jersey Tea

Ceanothus americanus

Oxeye Sunflower

Heliopsis helianthoides

Partridge Pea

Cassia fasciculata

Phlox

Phlox paniculata 'David'

Purple Coneflower

Echinacea purpurea

Red Twig Dogwood

Cornus sericea 'Bailey'

Serviceberry

Amelanchier Canadensis

Shasta Daisy

Leucanthemum x superbum

Switch Grass

Panicum virgatum 'Heavy Metal'

Witch Hazel

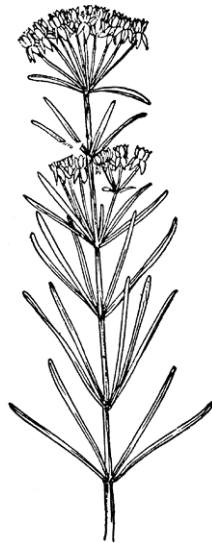

Hamamelis virginiana

Yellow Sun drops

Oenothera fruticosa

Yarrow

Achillea 'Coronation Gold'

Wetland Garden

These regionally native plants grow in wetlands from fully submerged conditions to wet soils. They are appropriate for water gardens, bio-swales, and rain gardens.

Arrowhead

Sagittaria sp.

Astilbe

Astilbe

Bayberry

Myrica Pennsylvania

Broad-Leaved Arrowhead

Sagittaria latifolia

Coreopsis

Coreopsis tinctoria

Itea

Itea Virginia

Jolly Bee Geranium

Pelargonium 'Jolly Bee'

Narrow-leaved Cattail

Typha angustifolia

Northern Blue Flag

Iris versicolor

Pickrel Weed

Pontederia cordata

Pussy willow

Salix sp.

Edible Herb Garden

The herbs and edible plants are harvested by the WCCC food service classes and are used for recipes served in their class restaurant.

Basil

Ocimum basilicum

Chives

Allium schoenoprasum

Curly-leaf parsley

Petroselinum crispum

Lavender

Lavandula angustifolia

Oregano

Origanum vulgare

Redbud

Cercis Canadensis
