

STRATEGIC PLAN

March 2006

Proposed Vision Statement

Our vision for the future of the WCSD is optimistic while at the same time based on what can truly be accomplished by inspired people. We see a district deeply interwoven with the latest technological capabilities that prepares its students to fully participate and compete in the global economy which will greet them upon graduation. We envision a diverse and challenging curriculum offered on an equal basis to all district students and presented in a rigorous fashion by a highly motivated and qualified staff willing to test the boundaries of each of their charges. Our schools will be the envy of others who look to us for guidance in creating an environment which prepares young people to excel not only in their academic and co-curricular pursuits but also in their efforts to become productive members of society. We can visualize an atmosphere that excites students to continue their pursuit of education long after they leave the confines of our classrooms and instills in them the desire to think and learn each and every day of their lives. We dream that the WCSD will dedicate itself to a course of action which brings this vision to life and creates a legacy of pride for all the people of our county.
