

STRATEGIC PLAN

March 2006

Proposed Beliefs

- Extra-curricular activities are an essential component of education.
 - Family support enhances a student's educational development.
 - Interactive partnerships between school and community enhance the quality of education.
 - Responsible stewardship of all available resources builds public trust and confidence.
 - Schools must provide rigorous and diverse academic programs that challenge every student.
 - Schools should continuously improve.
 - Students should feel physically and emotionally safe in their school environment.
 - Student utilization of current technology should be integrated into all curricula.
-
