AGENDA

- *Welcome* *Mrs. Kris Whittaker, Chairman*
- *Introductions* *Mrs. Berry, WCCC Principal*
- *Effective Advisory Committees (PDE mandates advisory committees as a condition for program approval).*
 - *General Advisory Committee—The main purpose of a local advisory committee is to strengthen the career and technical education program of a school or college. The committee provides valuable advice to the programs, plans, implements or supports activities to aid the programs. We depend on the General Advisory to promote the programs in the community. WCCC looks to our General Advisory Committee to provide us with up to date information to improve our programs; to help strengthen our relationship with business, industry and the community; to make recommendations to expand our curriculum; to assist in identifying our needs; and help us articulate our long-term goals.*
 - *Occupational Advisory Committee—the main purpose is to provide specific advice for a single occupational program. Additionally, we look to occupational committees to advise us in current trends and equipment used in the industry.*
 - *Professional Advisory Committee—Superintendents that advise school administration on program and policies that may affect strategic planning.*
 - *Participatory planning committee—This committee is a requirement for local planning and certain competitive funding authorized in the Perkins legislation. This team is comprised of agency personnel and school leaders.*
