July 28, 2010

Dear Dr. Kennerknecht:

The Warren Elementary PTO Board requests approval to proceed with the installation of an additional playground at WAEC designed and created by General Recreation, Inc., the same company who designed the current playground. We ask that the board approve a Lease/Release Agreement for the playground to be constructed at the southwest corner site where the two drives leading to WAEC meet.

The playground design and price quote are included with this letter. The components comprising the playground will be different from those on the current playground. Areas of it will be handicap accessible, and the addition of the sensory play panel will offer stimulating activities especially appropriate for our autistic and mentally retarded children.

The PTO has agreed to assume the cost of the quote from General Recreation, Inc. and asks that the district support this effort by providing equipment and manpower to drill the holes and spread the ground cover. For safety reasons, we also request that the district provide the fencing to surround the playground. We will be seeking community support and grant money to offset the cost from our general PTO budget.

Planning for this project has been completed by the PTO Executive Board and the principals. Installation of this structure will be done with parent and community support and coordinated by Curt Bischof from General Recreation hopefully in early October 2010.

We are excited to begin this project for our students and children and hope that you will be able to support this effort. Enclosed are diagrams of the general layout, the plans, and the cost of the structure. We appreciate your consideration in this matter.

Sincerely,

Ruth Nelson, principal

Committee Members:

Ruth Nelson, principal
Ann Ryan, principal
Jen Wortman, PTO Co-President
Maria Stanton, PTO Co-President
George Peck, PTO treasurer

Leah Thomas, parent
Alice Fadale, parent
JoAnn Gazdak, parent
Megan Yeager, teacher
Mary Beyer, teacher

Rachael Oser, teacher
Ann Buerkle, principal SSEL

Subject: Playground holes?

Ruth,

If we go with all the equipment on the second quote, the number of holes is 42. That would include the structure and sensory panels.

Thanks,

Curtis Bischof
