COURSE DESCRIPTION

Course Title: American Government CP

Course Number: 00156

Course Prerequisites: _____

Course Description:

American Government is designed to provide students the background they need to participate meaningfully in our democratic system. Students will examine the workings of all three levels of American Government: federal, state, local, and how citizens get involved at each level. Units to be studied include the basic foundations of government (including the U.S. Constitution); choosing government leaders; the separation of powers in government; and intergovernmental relations. Part of the course is to help students to become active participants in our democratic system and how government will affect them the rest of their lives. A variety of activities and media will be used to achieve the course objectives.

College Preparatory (CP) American Government differs from American Government in that greater emphasis is placed on the skills required for success at the college level. Thus CP students will do more supplemental readings (especially primary source documents) as well as more writing assignments and research.

A final exam is required.
