

Executive Summary

Topic: Cafeteria Software Upgrade- Heartland School Solutions

Committee Date: April 28, 2014

Summary

Heartland School Solutions, the manufacturer of the district's current cafeteria financial software have stopped support for the version currently in use at the Warren County School District. In order to stay compliant and to be eligible for support, we must upgrade our software platform from version 2.6.1 to 3.11.0. Other benefits to the district will be additional reports and user features to address accountability for MyLunchMoney.com, meal application processing and Direct Certification processing. This upgrade will also allow the district to meet reporting requirements.

The attachments provided explains the scope of work, timeline for completion and cost.

Recommended Motion

That the Board of School Directors approves the quote and scope of work from Heartland School Solutions for \$4,500 for WebSMART Software to be upgraded across all district cafeteria systems.
