<b>1</b>		<b>New Auditorium Seating</b>	<b>Irwin Seating</b>	
	617	- Citation Auditorium Chairs, model #90.12.66.4 The chair outer back is polyethylene with a 7/16" formed plywood inner panel that is covered with 2" foam and upholstered on the face. Back attachment hardware is recessed under the armrest. The seat is constructed of an upholstered dense solid foam topper and serpentine springs fastened to a polypropylene and fiberglass structural bottom. Seat operates with a cam style spring and gravity assist. Seat attachment bolts are covered with a vandal resistant cap. Armrests are solid maple hardwood. Plastic available if desired. Aisle end panels are 11"w x 17" high with a full radius bottom design for maximum beauty. Panel is covered with selected plastic laminate. Chair standards are steel constructed to match the slope of the auditorium floor. Attachment with standard lead-shield or similar anchors. Seat number and row letter plates are 5/8" x 1-1/8" oval shaped aluminum. Attachment to seat with pop rivets and into recess area in the armrests for row letters with two brass nails for vandal resistant installation. Fabric is Absecon mills Sherpa or Shire. High quality durable fabric in a wide variety of colors and patterns. Chair plastic, powder coat paint, wood stain, and Nevamar plastic laminate are selected from a wide variety of approved Irwin standards.		
	6	- ADA transfer arms included per code requirements. We have other aisle end panel styles available and can show them to the Owner.
