*This price reflects the "Hometown Discount" given to school systems in my immediate area.

These prices include free shipping unless there are special instructions. Please contact me if there are any special instructions.

The machines can be set up for an additional \$10.00 per machine. However, I am rarely asked to do this by other school systems. Just open them up and put good thread on them and they are ready to go. Of course, if one or two machines need adjustments, I will take care of them at no charge.

Please call or email if you have any other questions

Thank you

John Rogowski
