Phone: 814-723-6903 x 1034 / 814-968-3720

End Date of Program: 04/01/2017

Program Description: (Please attach any additional information you may already have printed for this application)

Junior Engineering Technical Society (JETS) is a national effort that promotes engineering and technology careers to American youth. The team will compete in the annual TEAMS (Tests of Engineering Aptitude, Mathematics, and Science) competition. Sheffield Area Middle High School JETS teams have done well at the regional, state, and national levels, and has even won a national trophy. SAMHS JETS Teams compete by answering 80- multiple choice questions, followed by additional work to answer essays and problems based on 8 scenarios.

Competition is expensive for such a small, rural school. TANF funding will allow students an opportunity to show off their abilities.

Element Addressed: (See attached checklist of elements. Please identify which element(s) you will be addressing in your proposal.)

Programs must be completed by June 30, 2017.

To submit a grant proposal complete the information on this form along with a detailed budget of your cost breakdown per youth, and attached element (s) to be addressed. All grant applications must be received by 3PM on September 1, 2016. Submit this application form, any supporting documents, proof of insurance listing GECAC as an "additional insured" and W-9 form to the appropriate address below:
