

Update to Board of Directors from Negotiating Team
RE: Teacher Negotiations – Second Session – April 2, 2019

The Board's team and the Teachers' team met for a second bargaining session Tuesday evening, April 2, 2019. During the roughly 5-hour meeting, we reached tentative agreements on two minor issues – one of the teachers' and one of ours – and the parties also made a little progress bargaining back and forth over some revisions to other language items. We left off with the Teachers' group working on a response, and they indicated they would need some more time to consider some issues. The next session will begin with the Teachers presenting their response to these language items.

The parties have not yet gotten to the economic issues, and after the April 2 session ended, the teachers' representative suggested to the Board's representative, that the teachers may not be done making their initial economic proposal. The Board will await further word from the Teachers on their economic proposal.

The next session is scheduled for April 16.
