Dear Supervisor Davidson:

At its August 9, 2021 meeting, the Warren County School District Board of School Directors voted to send this letter requesting that the U.S. Department of Agriculture, Allegheny National Forest approves the Special Use Permit Reauthorization for National Fuel Gas Company. The special use permits relate to pipelines and other infrastructure which are integral to local natural gas storage and delivery. The Warren County School District relies upon natural gas for the heating of its many school facilities. Any interruption in the delivery of natural gas to the Warren County School District would cause an interruption in the education of students. Such interruption is obviously a consequence that should be avoided, and it is for that reason we reach out with the request for approval.

Thank you for taking into account the input of the Warren County School District.

Sincerely,

Donna L. Zariczny
Board President
