The cost for round 2 is the same - so the chart below is still correct.

Paula,

Last time we had this audit you supplied us with what a range of costs we could expect for this service. It looked like this: Can you help us again, please. thanks. JG
GASB 45 POST EMPLOYMENT BENEFITS PRICING FOR ACTUARIAL SERVICES:

Below is the group pricing and recommended provider through IU5 to perform Actuarial Services in connection with GASB 45 requirements.

Conrad Siegel & Associates

Size Simple Average Complex

<200 \$3,450 \$4,950 \$5,950

201-500 \$4,500 \$6,000 \$7,000

>500 \$5,550 \$7,050 \$8,050

The cost would not exceed the complex number, no matter how complex it is. What most schools are doing is budgeting the complex number because the simple, average or complex is not fully determined until the actual work is done. Also CSA will only charge up to the actual time involved and I have seen a couple examples of a slightly lower charge than these quotes.

2.04 (a) GASB 45 norebt trust Conrad Siegel.doc 1 of 2 Finance 4.22.2008

Let me know if this answers your question From the Blackberry of Paula Varee

Paula

Since they are not a member of PA Trust their cost would be as follows:

Size Simple Average Complex

<200 \$3,450 \$4,950 \$5,950

201-500 \$4,500 \$6,000 \$7,000

>500 \$5,550 \$7,050 \$8,050

The cost would not exceed the complex number, no matter how complex it is.

What most schools are doing is budgeting the complex number because the simple, average or

complex is not fully determined until the actual work is done. Also CSA will only charge up to the actual time involved and I have seen a couple examples of a slightly lower charge than these

quotes. I hope I have answered your question - if not just let me know.
