Norbert J. Kennerknecht
Director of Buildings & Grounds Services
589 Hospital Drive, Suite A
N. Warren, PA 16365

Mr. Kennerknecht,

Thank you for the telephone conversation today.

I have approximately 35 years of experience in construction. During the past 16 years, I have been in construction management with significant experience with LP Ciminelli, Inc. from Buffalo, NY. I have supervised the renovation and construction of several public schools in Chautauqua County including Sherman Central School, Chautauqua Lake Central School, Fredonia Central School and as interim superintendent on the Phase 1 of the Dunkirk Central School project. I was not only responsible for the coordination of the project but also for the safety of the students, faculty, staff and workers since many of these projects were in progress during the interval school was in session.

I also supervised the construction of the new Jamestown Community College Cattaraugus County Campus in Olean, NY, the renovation of PS-30, the Frank Sedita Academy in Buffalo, NY and was involved with the Phase 1 through Phase 4 reconstruction of the Buffalo Public Schools Project.

During my tenure as superintendent with Barnes Construction, Inc., of Falconer, NY, I supervised projects at Jamestown Community College in Jamestown including the renovation of the Hamilton Collegiate Center, renovations and additions to the Arts and Science Building and several small projects at Southwestern Central High School in Lakewood, NY.

Summary

Degreed CM Superintendent / Project Manager with more than 35 years of diversified project experience including Senior Housing, Higher Education, K-12, Healthcare, Manufacturing, Municipal, Ground-up Construction as well as Historic Renovation with project values up to \$50M. Added expertise in pre-construction review of construction documents. Software: Microsoft Word / Excel / PowerPoint / Project, SureTrak (scheduling), Primavera Expedition, The Site Manager (TSM project management software). Training: OSHA 30, Safety and Accident Prevention, Risk Assessment, Project Delivery Models and other LP Ciminelli sponsored programs.

Employment History**Spray Tech Finishing and Assembly, Inc.****January 2012 – May 2012****Jamestown, NY****Project Manager**

This project included managing all aspects in assisting Spray Tech in moving from their existing powder coating / finishing facility into a new facility. The development and clarification of the project scope, accessing and implementing the required new infrastructure, securing bids, writing and executing contracts, coordination of the work among contractors, monitoring quality and safety, tracking the schedule and budget, securing the Certificate of Occupancy and project closeout were among my responsibilities.

Cannon Construction Services (Cannon Design)**May 2011 – October 2011****Grand Island, NY****Superintendent / Construction Management Division**

My responsibilities included the managing of the work force on a fast-track design / build project at the First Niagara Center (HSBC) Arena / Sabres locker room, sequencing the work, maintaining the schedule, communications with the architect/engineering team and resolving issues between design and field conditions. There were approximately 100 skilled tradesmen on site.

LP Ciminelli, Inc.**July 1997 – April 2011****Buffalo, NY / Construction Management Division****Senior Superintendent**

My responsibilities included insuring the safety of the workforce, owners, inspectors and public. The coordination of all construction activities on site, inspection of in-place work for compliance with the contract documents, coordination of the installation of MEP systems with the architectural structure. The maintaining and updating of the construction schedule, assisting in the flow of information between the design team and contractors and assisting in the resolution of all problems and conflicts. Additionally, I assisted the other members of the project management team with the development and review of RFI's, pay applications and claims for additional work, the execution and management of the multi-prime contracts, review of contractor submitted proposed changes for appropriateness, impact on the schedule and on the in-place work. I developed a motivational environment with a team work approach to the projects throughout the contractor base, maintained fairness and always led by example to "do the right thing".

Barnes Construction Co.**1985 – 1997****Falconer, NY**

Construction superintendent, carpenter foreman and carpenter. Responsibilities included the direct supervision of the construction crews, coordination of subcontractors and scheduling relating to the field operations in the construction of various commercial/industrial projects.

Employed with various contractors**1975 – 1985**

United Brotherhood of Carpenters and Joiners of America, Local Union 66
Carpenter.

Frewsburg Central School, Frewsburg, NY**1972 – 1974****Southwestern Central School, Jamestown, NY**

Instructor science/math

Education

SUNY Fredonia
Bachelor of Science, Physics
