

**10145 CHARTER SCHOOL COURSES AND CHARTER SCHOOL STUDENTS
TAKING DISTRICT COURSES**

Unless required by law, a student taking a course offered by a charter school while the student is enrolled in the District will not receive credit from the District for the course. Beginning in the 2019/2020 school year and continuing thereafter, a student enrolled in a charter school (including a cyber charter school) shall not be permitted to take any course offered by the District (including the District's Virtual Academy) or the Warren County Career Center. The one exception to this restriction is that a charter school student who was enrolled in courses at the Warren County Career Center during the 2018/2019 school year may continue to take courses at the Warren County Career Center, and receive credit for said courses, so long as the student is of "school age" (as this term is defined at 22 Pa. Code §11.12).
